Replacement parts that are not of genuine jaguar supply cannot be relied upon to be of correct specification, material, and workmanship and therefore Jaguar cannot be expected to extend warranty to vehicles which have been fitted with parts not supplied by them.

Jaguar reserves the right to make changes or improvements in the construction or specification of their products at any time.

IN ORDER TO ENSURE PROMPT AND CORRECT EXECUTION OF YOUR ORDERS, IT IS ESSENTIAL TO QUOTE:

1. The relative unit number, together with prefixes, suffixes and specification references where applicable.
e.g. Axle, Body, Vehicle Identification, Engine, Gearbox Numbers etc.
2. The Part Number and description (prefix and suffix letters to part numbers must always be quoted).
3. Always state the colour of carpets, painted items, trim items etc., using the colour code from the Vehicle Identification Number (VIN) plate and the colour combination key to identify the colour name.
4. The quantity required, bearing in mind that the quantities shown are those used in the application actually illustrated. Sometimes only minimum package quantities are available. These packs may well contain more parts than are required for a single job; for details of packaged quantities, see the Service Parts List.

THE LISTING OR ILLUSTRATING OF AN ITEM DOES NOT

V8 Petrol Engine Serial Numbers

The production fit V8 engine serial number is 10 digits long and denotes production date and time.

Typical serial number example:

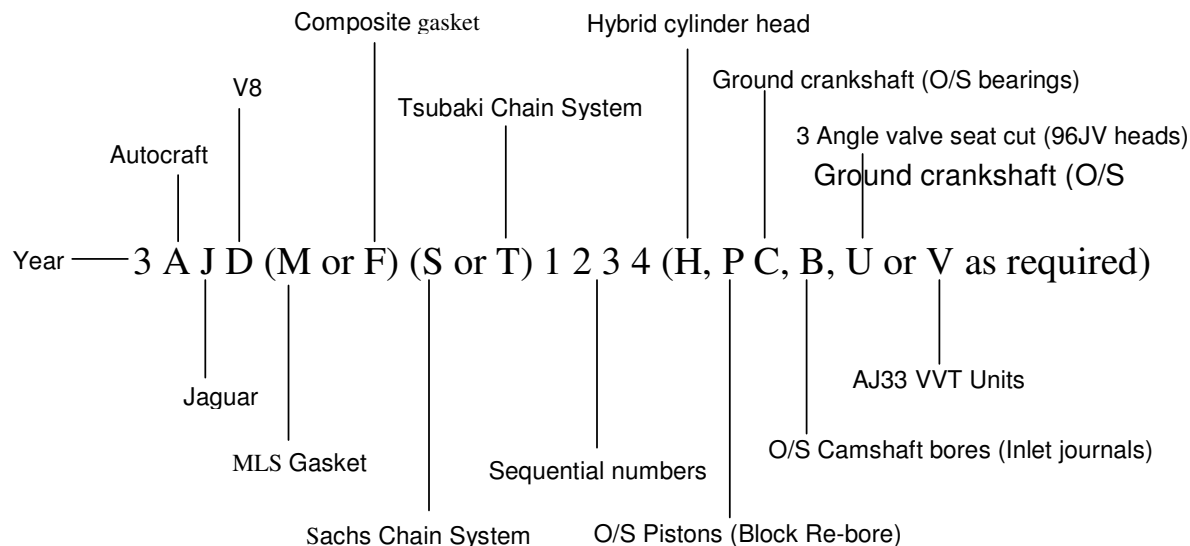

Serial number

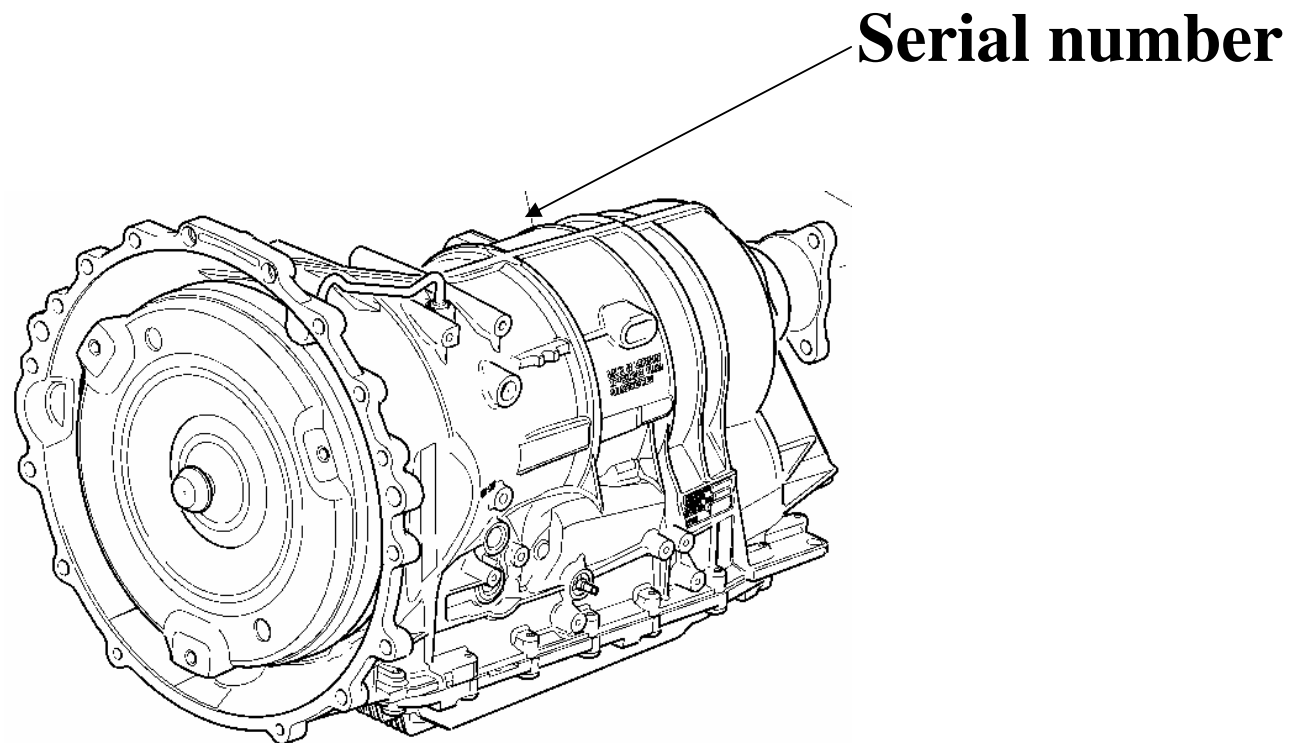

Emission label

Re-manufactured Engine Serial Numbers

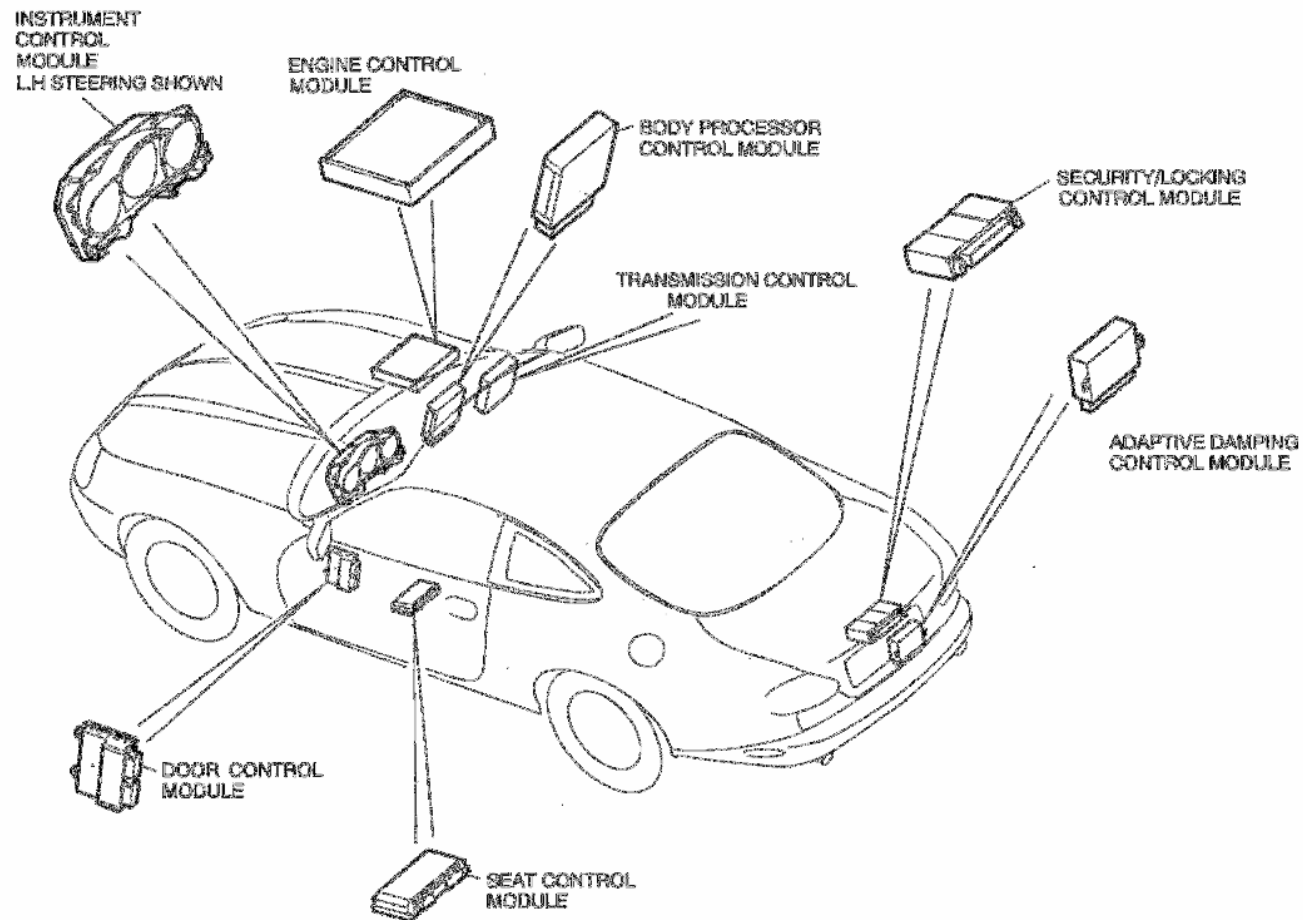

Head gaskets and chain systems are always fitted, and therefore the ID letters will always be part of the stamping. Care must be taken with the H, P, C, B, U and V options as these may not always be used. In some cases none of the letters will be required.
